PROJECT DATES: October 2014 – January 2015
PROJECT VALUE: £400k

PROJECT DETAILS

Atkins are one of the world’s most respected design, engineering and project management consultancies.

Prestige Interiors carried out refurbishment works which included a tea point, server rooms, partitioning and M&E to facilitate their move from various locations to one site.

CLIENT STATEMENT

This is the first time I have worked with Prestige Interiors and overall it was a very good experience. This project involved working within an occupied multi tenanted office block / site on a floor plate of 9,500sqft and carrying out the following works;

Category B Works including demolition of existing meeting rooms and removal of existing kitchen and floor coverings. Formation of new compartmentalised office/meeting rooms, service hub and a kitchenette/cafe area. Adaptation of existing M&E installation including supplemental M&E services, New IT installation, new floor coverings, alterations to existing ceiling and redecoration.

As a company I have found Prestige Interiors to be appreciative of the environments in which they work and sensitive to the continued working arrangements of the clients who are still occupying the premises. As a company and the team associated with this project, under Patrick Corrigan’s guidance, went out of their way to ensure that the project was kept on programme despite any difficulties working within these exacting circumstances and client requests for change.

The staff are very proactive, from the directors to the site personnel, and will always offer solutions to problems encountered on site rather than waiting for others to make decisions. Their tender submissions are comprehensive, the quality of work is first rate, their settlement of final accounts is swift, and they are not a claims conscious company.

Overall, working with Prestige Interiors has been a pleasure in this modern world of contracting and I would have no hesitation in working with them again on future projects and recommending them to others for inclusion on tender lists.

Vaughan Bridges
